

RASPBERRY ISLAND LIGHTHOUSE REHABILITATION

WHAT'S HAPPENING NOW?

As of July 15, 2006

Raspberry light, “the showplace of the Apostles,” is being rehabilitated this 2006 season. Plans to open the lighthouse for tours of the 1920's Keeper's residence will occur in the summer of 2007. The following pictures show you some of the activities taking place this summer.

Here's what's happening now!

Raspberry light station is a beehive of activity. Carpenters, painters, window restorers and others continue to do the very important work of restoring the lighthouse.

Scaffolding continues to enwrap the lighthouse.

Roofing is near completion.

The grounds have been seeded and mulched and are regularly being watered!

Fire suppression system has been installed throughout the lighthouse.

New siding is replacing the rotten siding.

Old siding vs. the new!

Working on the interior walls.

Drying newly painted and glazed windows. The old lighthouse tower railing makes a good drying rack!

Newly restored windows are back in the tower lantern room.

KEEPING WATCHING FOR THE NEXT UPDATE!
